First week of school and the Robotics Team is already working hard! Jared and Nolan take on the first steps in assembling a new robot.

Did you know a group of tigers is called a streak? GSD’s streak is having a growing streak! 😊

Give a big roar of welcome for these new students!

Xander is a 5th grader.

Zy’Merria is a 4th grader.

Sinclare is in 3rd grade.

Octavious shows off his cool Captain America mask.

Students and staff participated in GSD’s first “socially distanced” fire drill on Monday.

There will be no classes on Labor Day, Monday 7 September!

Residential transportation will run on Monday, 9/7.
Ever had a bad day? Of course! Everyone does. Social Worker Jackie Blanchard introduced a new way of identifying and coping with emotions. Based on how they are feeling, students can identify which “zone” they are in—green, blue, yellow, or red. The goal is to be in the green zone. If you aren’t, there are coping strategies people can use to handle emotions such as frustration, anger, or fear so they can move into the green zone, feeling calm and focused. Learning how to cope with difficult emotions will help students stay in the green zone more often. For more information, visit https://www.gsdweb.org/site/Default.aspx?PageID=2103.

Be sure to keep up with everything GSD this year!

Get To Know GSD’s New Staff Members!

Tiffany Hebert, Middle School Science Teacher

I was born and raised near Baton Rouge, LA. Yep! That makes me a Cajun!! My last name is pronounced A-BEAR. I have 9 years experience teaching middle school. I am married with 3 children and have 4 dogs and 3 goats! This year I am looking forward to full immersion into ASL and providing for my students in every way possible.
